

VAC-CON

MORE POWER TO YOU

CATCH BASIN SEWER CLEANER

VAC-CON EMPOWERS YOU TO DO MORE

Vac-Con delivers more power and value than the competition

Only a Vac-Con comes fully loaded with a powerful package of thoughtful features

For more power, flawless ease of use, relentless performance, rugged durability and uncompromised safety...Vac-Con delivers.

More Uptime—Vac-Con machines are so durable they stay on the job longer

More Proof— Vac-Con's technology always delivers better equipment and solutions

More Success—Vac-Con machines allow you to load faster, last longer and do the job better

More Confidence—With Vac-Con you just know that you can always do more

EVERY VAC-CON IS BACKED BY POWER UP CUSTOMER SUPPORT

No matter what you need, our mission is to help you on the spot. We go the extra mile to get you back on the job as soon as humanly possible. Vac-Con's part tracking software ensures that we have in inventory all the parts you need when you need them. We have a dedicated service facility for all warranty work, local repairs, and refurbishing work.

Power Up gives you:

- 26,000 square foot service department
- Training centers with expert instructors
- 24/7 real person support help line
- Over \$5 million in parts inventory
- 24 hour parts shipment turnaround

IS THE HUMAN FACTOR

While we build the best machines available in the industry, it's our people who really make the difference. That's because our people always take the extra step and always go above and beyond to make sure you have exactly what you need to get the job done. The human

factor also extends to our dealer network of:

- US dealers for all 50 states
- Canadian dealers for all provinces
- International dealers in most countries

THE BEST PART ABOUT VAC-CON

VAC-CON'S FEATURES ARE BETTER BY DESIGN

COMPRESSOR SYSTEM PERFORMS ON THE JOB AND UNDER WATER

Vac-Con's unique 3-stage compressor simply loads faster than any other fan on the market. Increasing both vertical and horizontal pull, this powerful system develops 200"

(H2O) of vacuum to perform the toughest jobs, like vacuuming underwater without special attachments. It is backed by a five-year warranty.

HYDROSTATIC DRIVE MAKES THE OPERATOR'S LIFE EASIER

Using the Vac-Con chassis engine with hydrostatic drive for the vacuum is a more efficient system because it's less complicated and eliminates the need for cumbersome PTO,

clutch, and gearbox operation. It will allow the operator to focus on getting the job done. We don't believe that you should have to work hard to make the machine work hard!

VAC-CON WATER TANKS ARE THERE FOR THE LONG HAUL

Constructed of durable cross-linked polyethylene, these tanks resist damage from impact, are not affected by the elements or corrosion, and are easily maintained.

We are so confident, we offer a standard ten-year warranty.

CORTEN® STEEL DEBRIS TANK IS MORE DURABLE AND RESISTS RUST AND CORROSION

All Vac-Con debris tanks are made of Corten® steel, a high strength, low-alloy steel, developed and proven in vacuum loader applications to resist corrosion and abrasion. The debris

tank door is securely fastened by hydraulic door locks and is controlled from the side of the truck for optimum safety and... it's backed by a five-year warranty.
